August
12–13, 2013

Berkner Hall
Bldg. 488

Brookhaven National Laboratory
Upton, NY, 11973, USA

NSLS-II First Experiments Workshop

Monday: Morning Plenary Session

Afternoon Breakout Sessions

"Coherence, Dynamics, and Polarization"
(CHX, CSX-1, CSX-2)

- Hard material and condensed matter physics science focus
- Soft matter, biology, chemistry science focus

"Combined Multi-length Scale Techniques for 21st Century Science" (HXN, SRX, XPD)

- Soft matter, biology, chemistry science focus
- Hard material and condensed matter physics science focus

Tuesday: 6 Parallel Sessions

Hard X-ray Nanoprobe (HXN)

Submicron Resolution X-ray Spectroscopy (SRX)

Coherent Hard X-ray Scattering (CHX)

Coherent Soft X-ray Scattering (CSX-1)

Full Polarization Control Soft X-rays (CSX-2)

X-ray Powder Diffraction (XPD)

Inelastic X-ray Scattering (IXS) focus session – Fall 2013

Late Afternoon Plenary Session
